

Pool Schedule

The 2025 Board has adopted the following pool heating schedule after looking at usage and expense. It is noted that the pools are an amenity of Las Haciendas, but not the only amenity of our diverse community. Going back to the original intent that heating the pool is to only extend the swimming season and the night time temperatures.

Spring the South Pool will be heated from April 1 until it turns off naturally.

Fall The South Pool will be heated the month of October only.

Spas will be heated at both the North and South pool year round
